GALERIE ZUM HARNISCH NFT & ART SHOP

Since 2013, the GALERIE ZUM HARNISCH has been dedicated to making art visible and opening up new avenues for creativity. As a private gallery with a rich history, it has successfully realized numerous art projects and given over 100 artists the opportunity to broaden their horizons.

In an increasingly digital world, artists are exploring innovative ways to connect with their audiences and showcase their work. NFTs (Non-Fungible Tokens) offer exciting new opportunities by making art digitally tangible and accessible, with numerous benefits.

NFT marketplaces now play a central role in connecting artists, collectors and buyers on a global level.

Galerie Zum Harnisch is proud to be part of the renowned NFT platform WiSe.Art, where we present an exclusive collection of artworks - both digital and physical. This allows us to bridge the gap between traditional art and digital innovation.

This year was a special highlight for the Galerie zum Harnisch: the intensive collaboration with the legend of digital art, Laurence Gartel. The artist, born in New York and living in Miami, is considered a pioneer of digital art and inspires the world with his groundbreaking works.
